

2nd International Meeting on Nonbacterial Osteitis

June 7th, 2013 9am - 3pm
Munich, Germany
An update

Invitation

Dear colleagues and friends,

in April 2009 Hermann Girschick organized the first international expert meeting on nonbacterial osteomyelitis at Würzburg. Since then we included our patients into the Eurofever registry and the first paper on this topic is forthcoming.

Meanwhile we learned some more about pathogenesis, epidemiology, classification, diagnostics, therapeutic procedures and outcome.

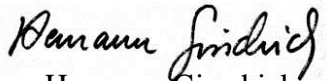

It is a pleasure to us to invite you to attend the second meeting on chronic bone inflammation in Munich, Germany, June 7th. The conference will be held in the *Dr. von Hauner Children's Hospital* Ludwig-Maximilians-University Munich.

In addition Munich's parks, stunning architecture, history, culture, beer gardens and a magnificent countryside give it a very special character – maybe you decide to stay for the weekend?

We look forward to welcoming you all.

Annette Jansson

Hermann Girschick

Topics

(speakers in alphabetical order)

Andreas Arnoldi, D

Whole body MRI in Munich

Meinrad Beer, D

Whole body MRI in NBO – do we need other imaging?
